SOUFFLÉ COLLECTION

cod. SC_LEMON

Exactly like its namesake, Licorice has a strong connotation. With his height of 10 x 30 x 25 cm this vase stands proudly, demanding to take up space. It's unmistakable Russian Violet color plays with the transparency of glass, allowing the light to enter, without giving up control. The accurate, swirly edge, the true signature of the Soufflé collection, and made with threads of fire canes, is the cherry on top of a truly unique art piece.
