HOME COLLECTION

MANGO

SOUFFLÉ COLLECTION

cod. SC_MANGO

The lightness of blown glass has been masterfully shaped to obtain an extraordinary, unparalleled piece. Mango makes two realities clash and collide to create a new one, where the thickness of the base can not only coexist with the light, clear top, but also work with it in peace. The Honey Yellow and the dark black slowly fade into lighter nuances towards the center, never tiring out the eye of the spectator. Mango, accompanied by the signature Soufflé collection swirl at its opening and measuring 8 x 27 x 24 cm, is a prime example of the ability of its creator doubtlessly a fine addition to a tastefully designed room.
