ORANGE

SOUFFLÉ COLLECTION

cod. SC_ORANGE

Orange is the brightest vase of the collection. With its distinct Imperial Red color – interrupted only by the touch of yellow on top – it catches the eye of every passerby. The shining nuance is the perfect companion for the neat, defined lines that shape the vase. The regular surface that slowly gives in to the concentric yellow circles tells a story about the ancient art of glass blowing, entrancing visitors by playing with the light. Orange's final touch is the signature swirl at its opening, typical of the Soufflé collection. Thanks to his measurements of 15 x 20 x 25 cm, Orange is perfect to take a strong stance in any environment.
