## OMERO

TABLE LAMP

TL\_OMERO

Omero is an important table lamp, a strong statement that also works when used as a floor lamp. Its solid structure in refined painted metal may be paired with various combinations of glass, or metal, and that is the reason why it is able to stand out even when it is turned off. Omero, which measures 40 x 50 cm, may be further customized and made available in various metal finish options.

\*Material options are customizable upon request.
